## TRUCK CAMPERS

*'The reason for my adulation sits squarely in the brilliant non-slide, mid-bath floor plan and its high-quality execution. The panoramic rear view, full-booth dinette, straight kitchen, large wet bath, and cabover bedroom separation make the floor plan work beautifully. Northwood's top notch quality makes the final product a real winner.*

*2019 Arctic Fox 865 Review - Truck Camper Magazine - March 26, 2019*

- Huge Load Capacity w/ 4" Additional Head Room and 5" Thick Rigid Foam at the Crown of the Cathedral Arch Ceiling
- Heated Enclosed Large Capacity Holding Tanks

Valley of Fire State Park

*My favorite features would be that it has a good amount of storage on the interior. Also it has two 7 gallon propane tanks, a 50 gallon water tank, and is four-season rated, all great features for extended stays while boondocking. The camper came equipped with a 2,500 watt propane onboard generator and a 100 watt solar panel on the roof. I also have an 80 watt portable solar panel that I direct towards the sun. I primarily use solar to recharge my two 105 amp hour AGM batteries. I don't have a big need for power so it keeps up pretty good unless it's cloudy all day then I'll top the batteries off with the generator. It's been a great setup for me so far.*

# ALUMINUM SUPERSTRUCTURE

Anchor blocking gives substantial strength at main connection points.

Thick wall aluminum basement floor joists support our holding tanks under the basement of every Arctic Fox Truck Camper.

'Big' holding tanks require a 'Big' floor structure...

# ABSOLUTE NORTHWOOD

FULLY WELDED THICK WALL ALUMINUM TUBE FRAME WITH SOLID CORE ANCHOR BLOCKING AND HEAVY DUTY ALUMINUM BASEMENT FLOOR FRAME

The Fox Landing offers a large entry platform, convenient fold away stairs and an intermediate step for easy access. The stairway can be installed to the left or right of the landing and the platform folds up out of the way for travel or when hitching your boat or trailer. Check it out!

- 4 Equal Height Steps
- \* Mid Step (Between Bumper & Threshold)
- \* Wide Bumper
- \* Left or Right Hand Accessible
- \* Steps Fold Up in Seconds
- \* Single Pin Locks Into Position
- \* ...Exclusively in Northwood Campers!!!

Please Note: The Mid Step is an option when adding a Fox Landing to a previously purchased camper.

1. Steps in the down position.

2. Treads fold up.

3. Landing folds up, and pin locks it into place

SOLID WOOD CABINETRY MOUNTED TO THE WALLS AND THE CEILING

4 SEASON ALL WEATHER CAMPER

By using solid wood face frame construction and then integrating the cabinet with the structure of the ceiling and walls, our coaches and our cabinets are both made stronger. Our fully enclosed, insulated and heated holding tank area circulates air around the suspended tanks providing the best protection from freezing. All our dump valves are also enclosed and heated to ensure smooth operation, even in cold northern climates.

## Full Wall Wardrobe in the Bedroom

## Roll-Over Lounge

## The Long & The Short of it.

Customers often ask... 'What's the deal with 'long box/short box' designation on the 811 & 865 model Arctic Fox campers?'

A brief explanation: 'The Box' we are referring to is the truck bed. In a short box (bed) truck, the distance from the bulk head to the rear bumper is less, so more of your camper will extend beyond the rear bumper. That extra overhang makes it possible for additional storage or for a generator compartment. A long bed (box) pickup has more of the camper inside the bed and less overhang.

See the schematic below:

DESERT PALMS

# 36 ON THE ROOF

When Northwood advertises a  
“Full Walk-On Roof”  
for our Arctic Fox truck campers, you  
not only can walk everywhere on the  
roof, but you could invite a couple  
dozen of your friends  
to join you!!

We tested the strength of our  
AF 990 full-wall slide model by  
loading the roof with 36 of our  
camper line employees.

(A good testimonial for our camper jacks, too!).

SEE THE VIDEO

## When we say ‘FULL WALK ON ROOF’ we mean it!

Don't try this with your camper, especially if it's a competitor's model! Our employees are in, on and around campers all day long. Please, be safe!

**CAMPER SAFETY TIPS:** For your safety while driving, use mirrors that allow you to view past the camper to the rear on both sides. Trucks can be purchased with extended mirror options or you may purchase mirror extensions. Truck manufacturers state that you should not exceed the GVWR for the vehicle that carries your camper. The configuration of your truck will determine what size camper your vehicle can carry. A dual rear wheel truck is advisable for Arctic Fox campers. Adjustable air bags will help to level your vehicle, transfer rear axle weight forward for comfort and safety, and are recommended for all Arctic Fox applications. Some states allow passengers to ride in the camper, but it is not recommended as there are no seat belts available. When driving in any adverse weather condition it is always best to reduce your speed. The pickup should be outfitted with a durable rubber mat liner to reduce shifting while traveling. The mat will also protect the truck bed and camper from scratching while loading and unloading.

Use  **TORKLIFT** frame mounted camper tie downs for greatest safety.

# ARCTIC FOX: THE BEST AVAILABLE

We love our 2018 Arctic Fox 811.

A lot of research went into what our truck camper needed for us to be able to live full time in it. Bill and Ryan of Truck Camper Warehouse in West Chesterfield, NH (which is where we lived) answered all our questions, so we were able to find and create our perfect home.

On the inside, we love the warm brown tones, the ambient rope lighting, dinette slide out, storage in all available spaces, size of the appliances and just overall it has the coziness of home.

We sold our home and everything last May and became Truck Camper Living. We have traveled 10,000 miles across the country so far and had no issues with the

Arctic Fox 811. We came back to NH for the holidays and even with the cold temperatures we experienced no issues with making minor modifications.

We welcome you to check out our You Tube channel - Truck Camper Living, and see our tutorials of our Arctic Fox 811 as well as our journey. Also, find us on Facebook, Instagram and the web at <http://www.truckcamperliving.net>

As far as we are concerned Arctic Fox is the best truck camper available with it's solid construction, attention to details and insulation values.

We hope to see you along our journey...

Elaine & Arnie Croteau  
Truck Camper Living LLC

# FOX TALK

SUNRISE AT GREEN SWAMP, FLORIDA

We bought our first truck camper with the intention of traveling to Alaska and selling it upon our return to the lower 48 States. However, our experience with the truck camper was so good that we decided to make it our summer travel camping vehicle. In September 2018, we traded in our first truck camper for our Arctic Fox 990. Among the reasons we chose to change units are Arctic Fox's 4 Season Package, the location of the slide room on the 990, and the ability to access the camper with the slide in.

Our summer journey usually starts in early April and ends some time around Halloween, and we average over 20,000

miles. Because of the ease of travel and finding campsites while using our truck camper, we have a general idea of where we're heading for the day, but can easily change direction and plans as something else draws our interest. Our camper is also used during the winter season as we are snowbirds in Florida and go off on weekend excursions with friends from time to time.

I've camped throughout the southwestern United States and Alaska, with and without my horses but always with my camper. I just love that I can have the comforts of home and yet squeeze into the most inviting of places. And inside, my Arctic Fox is roomy. There is plenty of space for a couple of people and my large dog.

I have been interested in an Arctic Fox camper for a long time but several years ago dismissed it because in my research it appeared that all Arctic Foxes had slide outs. I didn't want a slide out and so I settled for another brand that didn't have one.

I was very disappointed in that particular camper. Then last winter while camping at a horse motel, I got to know a woman who had an Arctic Fox with a slide out. She mentioned that Arctic Fox does have a model without a slide out. I was thrilled and started looking for one immediately. It didn't take long to find one and it is just perfect. The quality of these campers is so impressive. This is my fifth camper. It is the best made of all of them; it has more storage; the layout has been well thought out. I am now a happy camper!
